

Inward AMR Innovation Mission to the UK 2022

Innovate UK is inviting ambitious UK organisations to participate in the AMR (Antimicrobial Resistance) UK Inward Mission along with carefully selected international businesses to help the global curbing of AMR through collaboration and joint innovation

Keynote lectures | Overview of local ecosystem | Tour of facilities | 1:1 Matchmaking opportunities
16 May (Oxford) – 18 May (Alderley Park) – 20 May (Edinburgh)

Helping you to innovate in

- Preventives/vaccines
- Stewardship tools
- Microbial diagnostics
- Antibiotics
- Alternative antimicrobials

Benefits of joining the mission:

- Initiate and arrange productive pre-scheduled 1:1 meetings
- Generate fresh leads and meet new contacts in a time and cost-efficient way
- Grow your international presence

Why participate?

- Know your market: hear from a range of industry experts where the market and insight gaps are
- Get funding insight: understand the competitions and how to be successful
- Develop strategic partnerships: meet a range of relevant organisations

Who should attend?

- Start-ups/SMEs/Multinationals
- Academia
- Research Institutes

Keynote presentations from Thematic Champions:

- 16 May, Oxford: Prevention and Vaccination – Prof Calman MacLennan
- 18 May, Alderley Park: Antimicrobials – Prof Janet Hemingway
- 20 May, Edinburgh: Microbial Diagnostics – Prof Till Bachman
