

U.K. Manufacturer of Type IIR Surgical Face Masks?

A SAFE & SECURE SUPPLY FROM A LOCAL MANUFACTURER

Paragon Health was established to help meet the demands for Personal Protective Equipment (PPE) and to provide a stable and safe local supply of surgical masks. We wish to help ensure that our frontline workers and local communities are protected during Covid-19 and are prepared for any future crisis.

WHY PARAGON HEALTH?

MANUFACTURED IN THE U.K.

All of our manufacturing is carried out at our factory in Northern Ireland, giving our nursing home, hospitals and trade customers a stable, high quality supply of masks at extremely short lead times.

GUARANTEED QUALITY.

Our parent company is Seating Matters Ltd, a medical device manufacturer. We have a long standing history of supplying the NHS and other healthcare facilities globally and therefore have built a reputation as a trusted manufacturer.

All masks are manufactured at our ISO 9001 accredited facility and are EN 14683 compliant.

REMOVE THE RISK OF FRAUD & CORRUPTION.

Many of our customers came to us after purchasing products from overseas companies and there were doubts about their safety, quality and regulatory compliance.

We can remove this risk.

EXTREMELY SHORT LEAD TIMES.

We can process your order within 1 day and ship to any location in the UK within 1-3 days.

REMOVE STORAGE & HANDLING COSTS.

Place a bulk order with us and we can take the order, hold the stock and ship it out to individual locations as and when it is needed.

MASK SPECIFICATION

Offering both c-shaped ear loop design, these masks are in line with local and national guidelines on the safe use of face coverings and Personal Protective Equipment.
